

The path to the label

10 criteria for the award

To receive the Climate School Label, schools must meet the following criteria:

- ✓ Establishment of a climate council and core team
- ✓ Anchoring climate protection in the school's mission statement and in interdisciplinary lessons
- ✓ Further training of teachers and employees in the areas of climate, energy and sustainability
- ✓ Reduction of energy consumption by optimizing operations in terms of energy and increasing the share of renewable energies
- ✓ Ecological enhancement of the school area to promote biodiversity
- ✓ Promotion of climate-friendly mobility in the vicinity of the school
- ✓ Consideration of climate-friendly products in new acquisitions and investments
- ✓ Expansion of the recycling system and reduction of waste volume
- ✓ Promotion of climate-friendly nutrition
- ✓ Communication of the activities in the school environment and towards the MYBLUEPLANET project team
